

ICL INTEGRATIVE LABORATORY SERVICES

FEATURED TEST

PRECISION ANALYTICAL: *DUTCH Complete Hormones*

Precision Analytical is a CLIA certified laboratory run by a team of dedicated scientists with combined experience of over 50 years in performing laboratory tests and developing novel testing methods.

Their DUTCH Test works to deliver a complete assessment of sex and adrenal hormones, along with their metabolites, in one easy to administer test, helping to provide customers pathways to optimal health.

For a list of Precision Analytical services routinely offered by ICL refer to the ICL Integrative Laboratory Services Menu.
